**ARE YOU STUCK IN THE
SHALLOWS?**

Incomplete picture of work & challenges

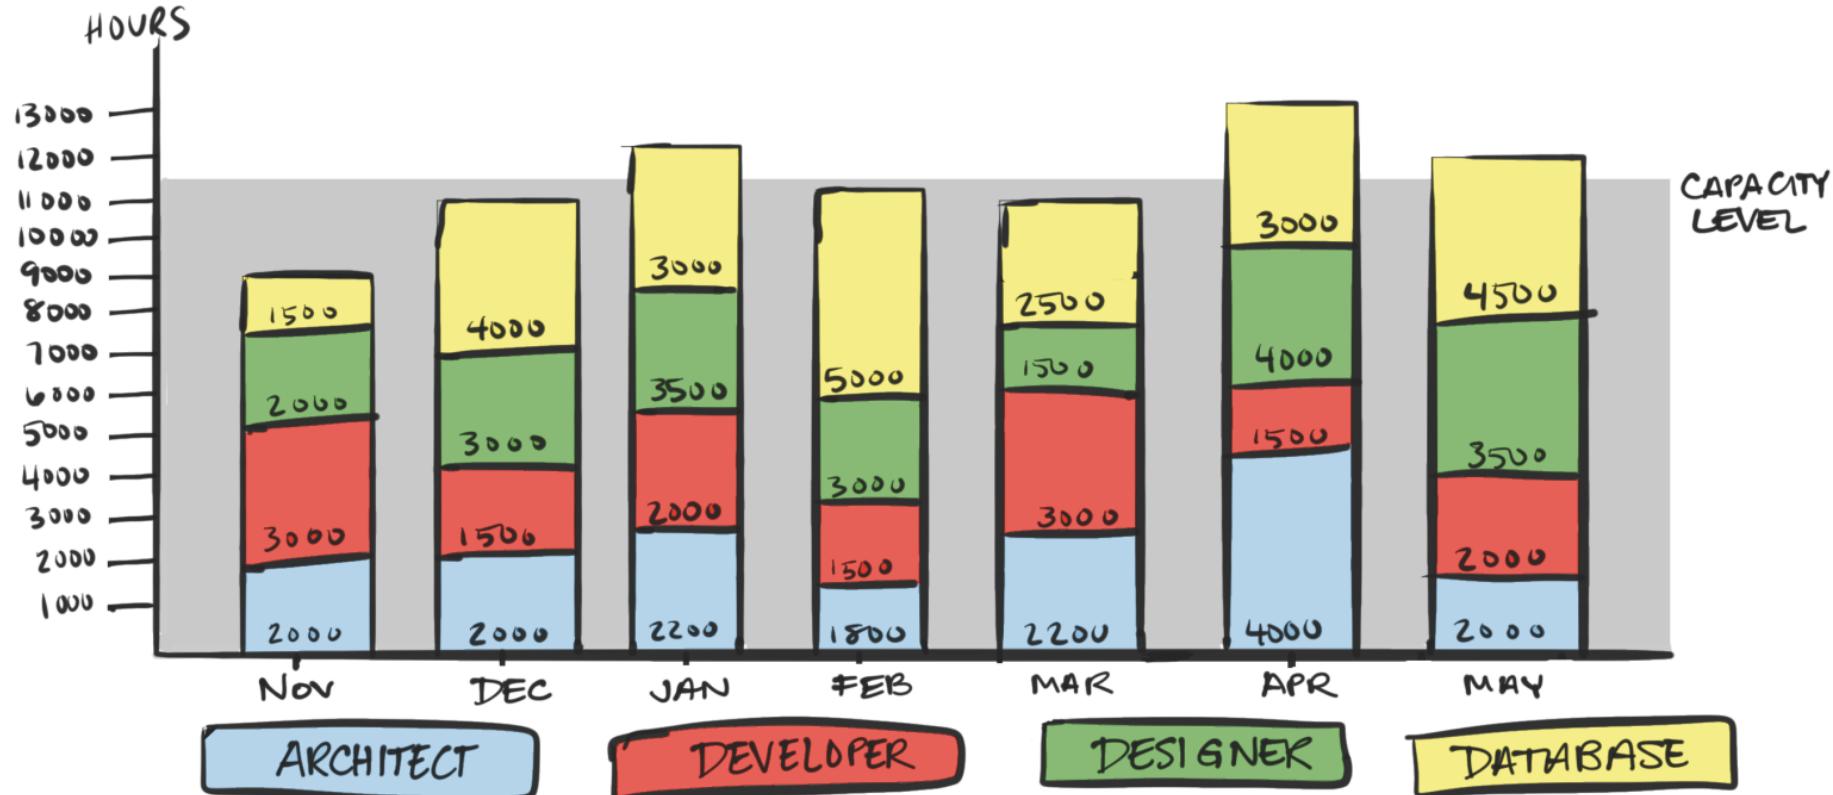

BACKLOG	CURRENT	Q1	Q2	Q3
SEE WIKI FOR FULL LIST				

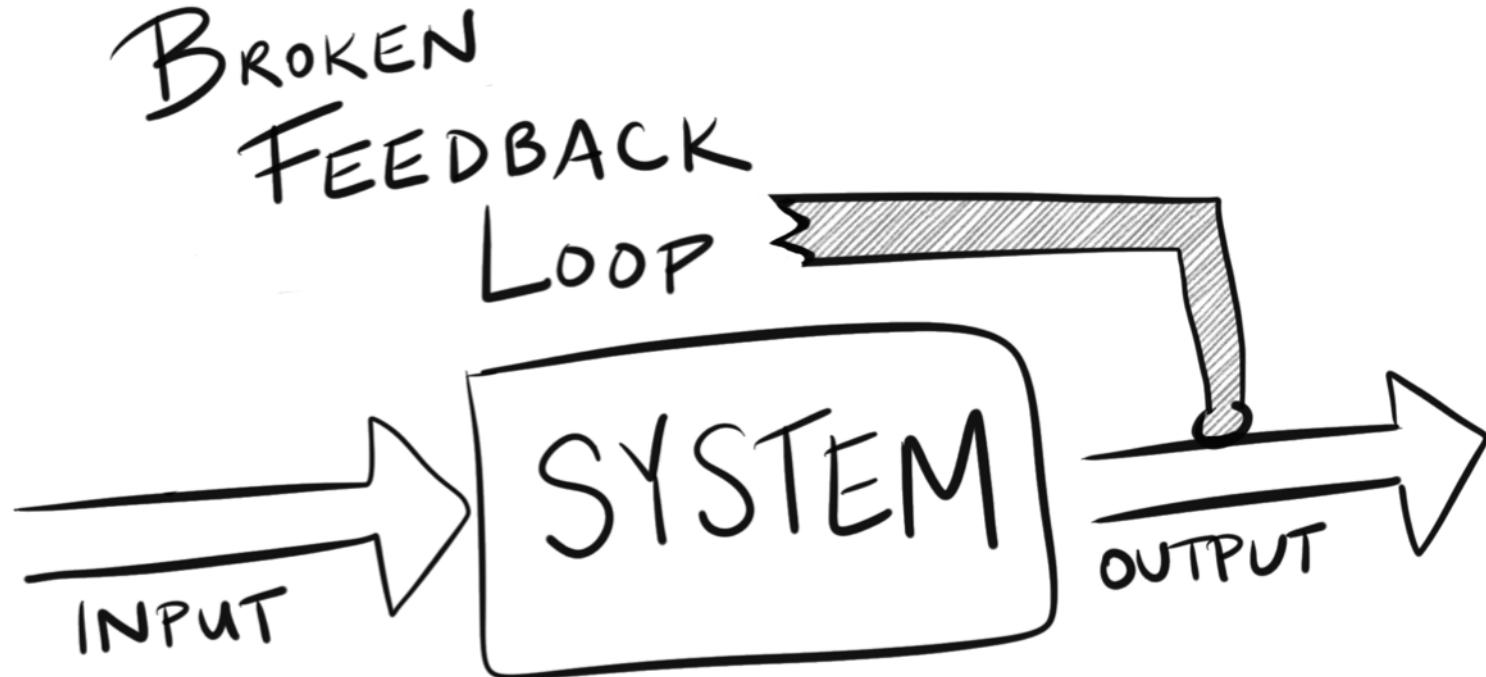

Alignment across silos is far from reality

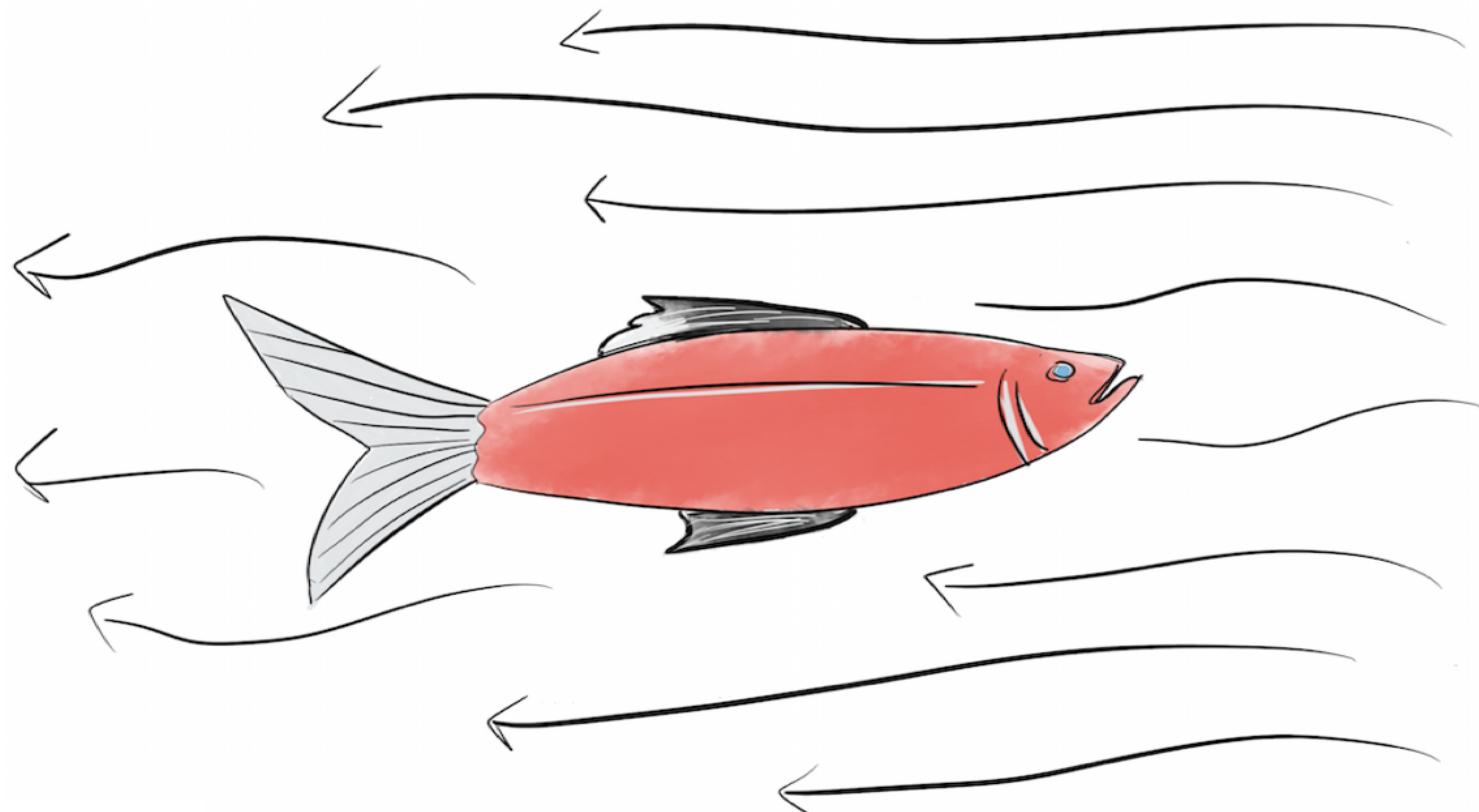

Focus is on maximizing capacity usage

Improvement is exceptional... in a bad way

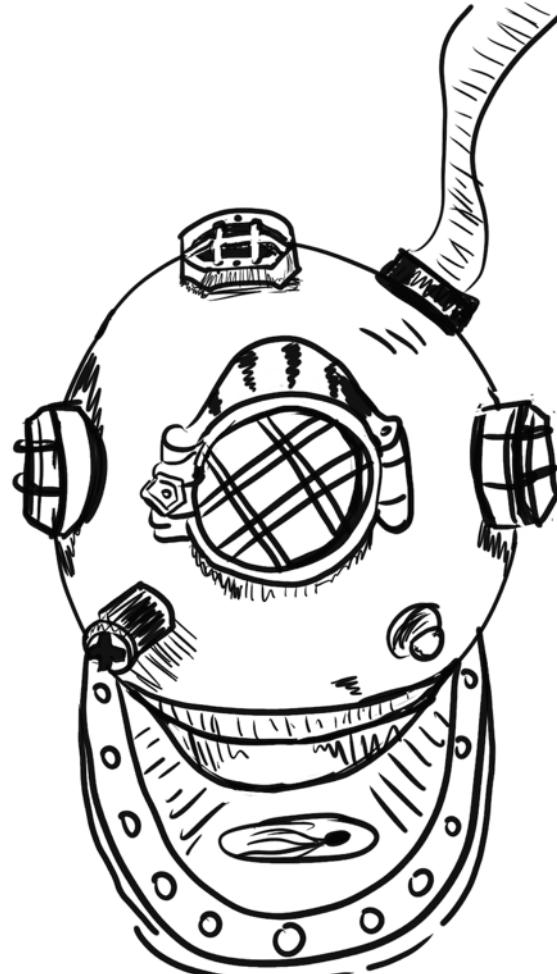

Just keep moving forward

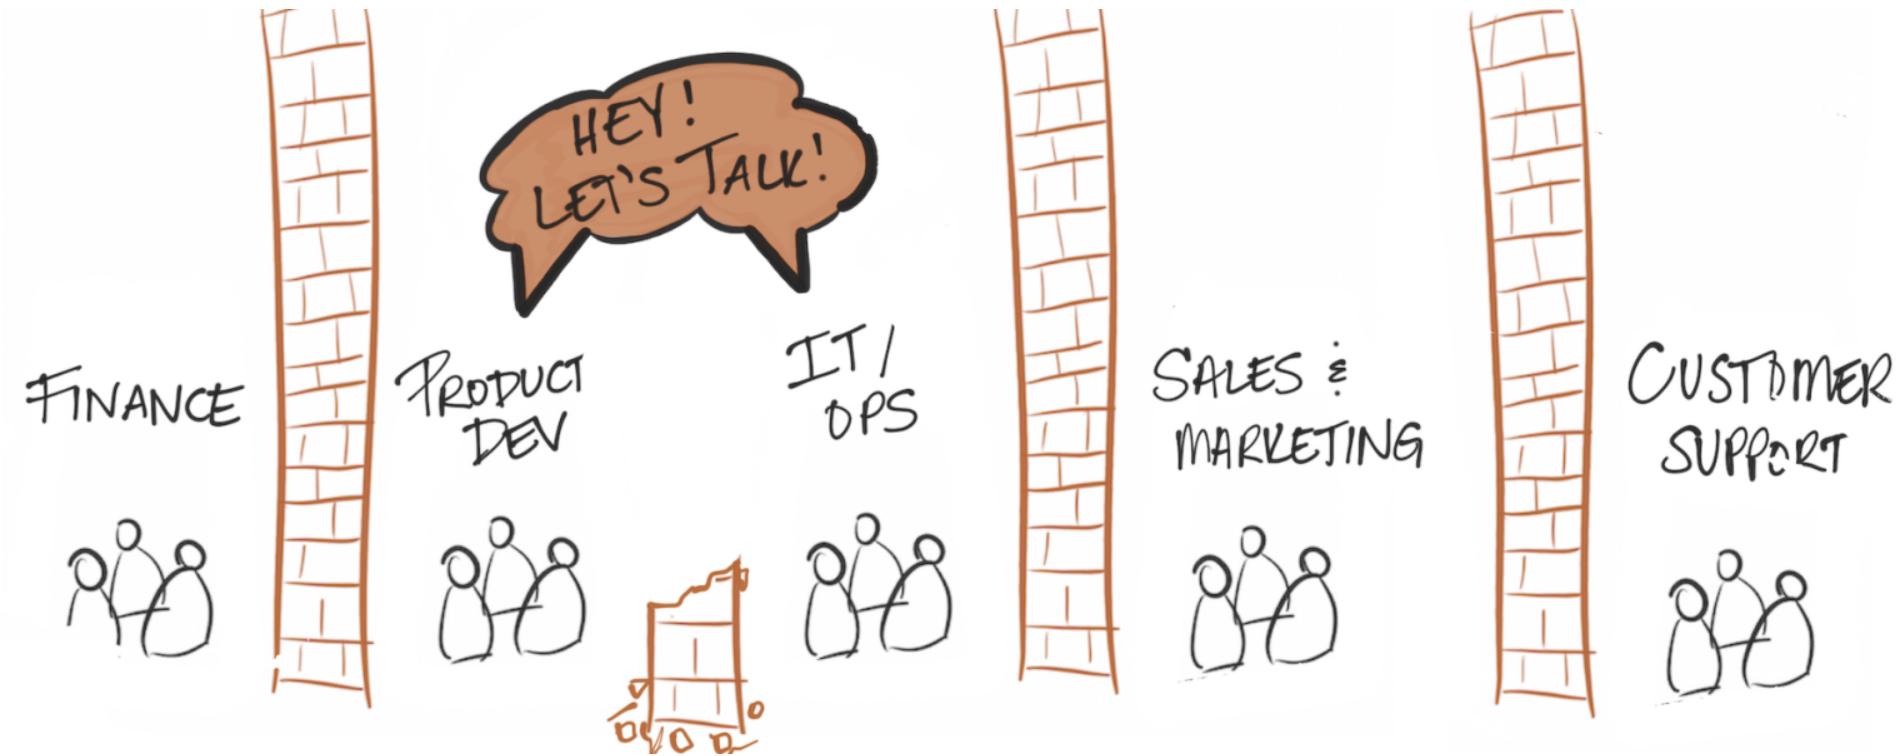

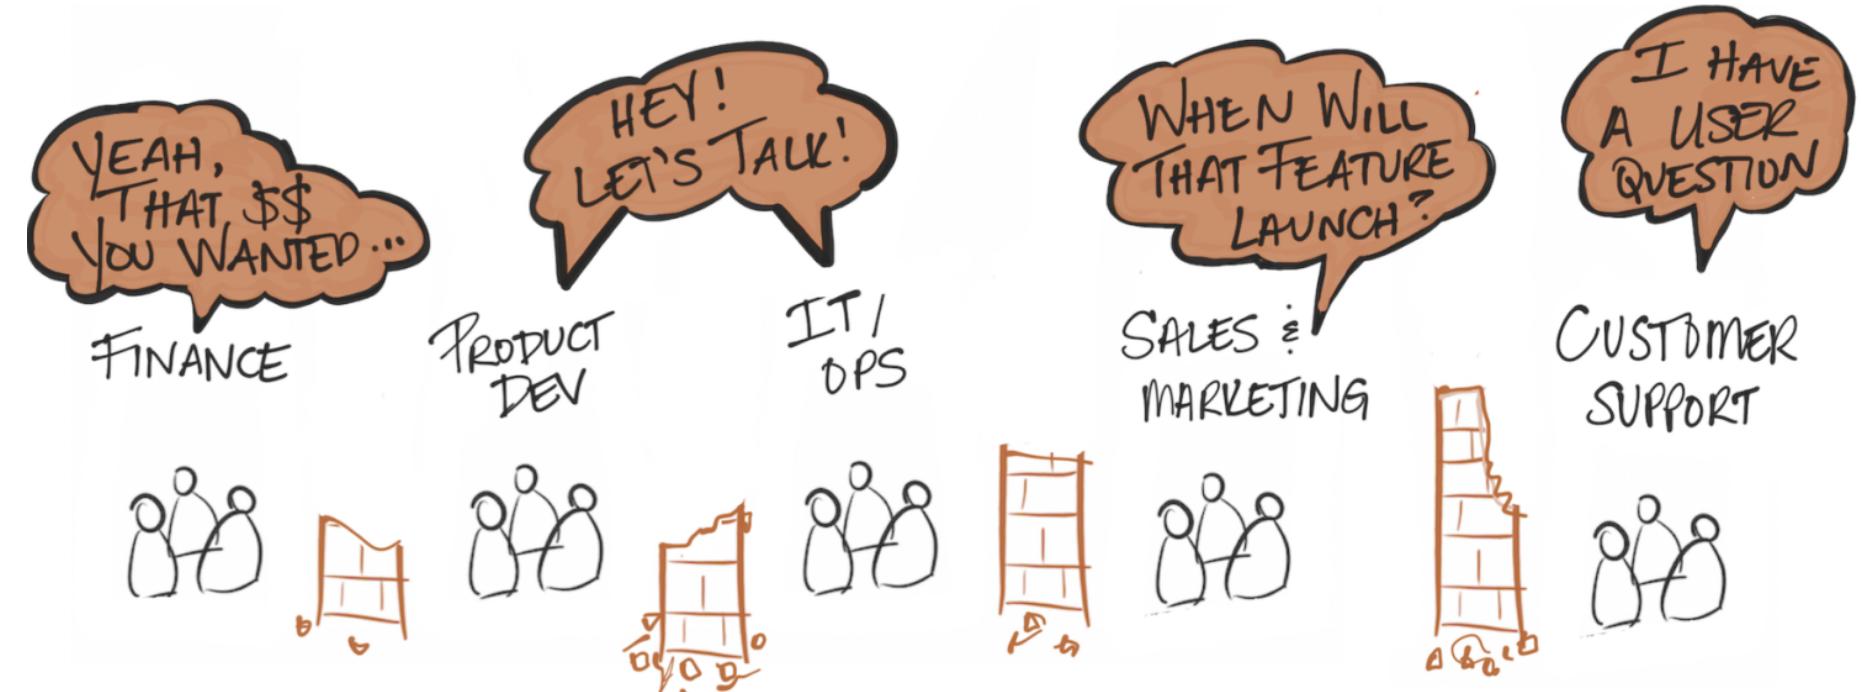

DIVING DEEPER

Themes and tactics to help you find sunken business value (and maybe your sanity!)

Connect the Entire System

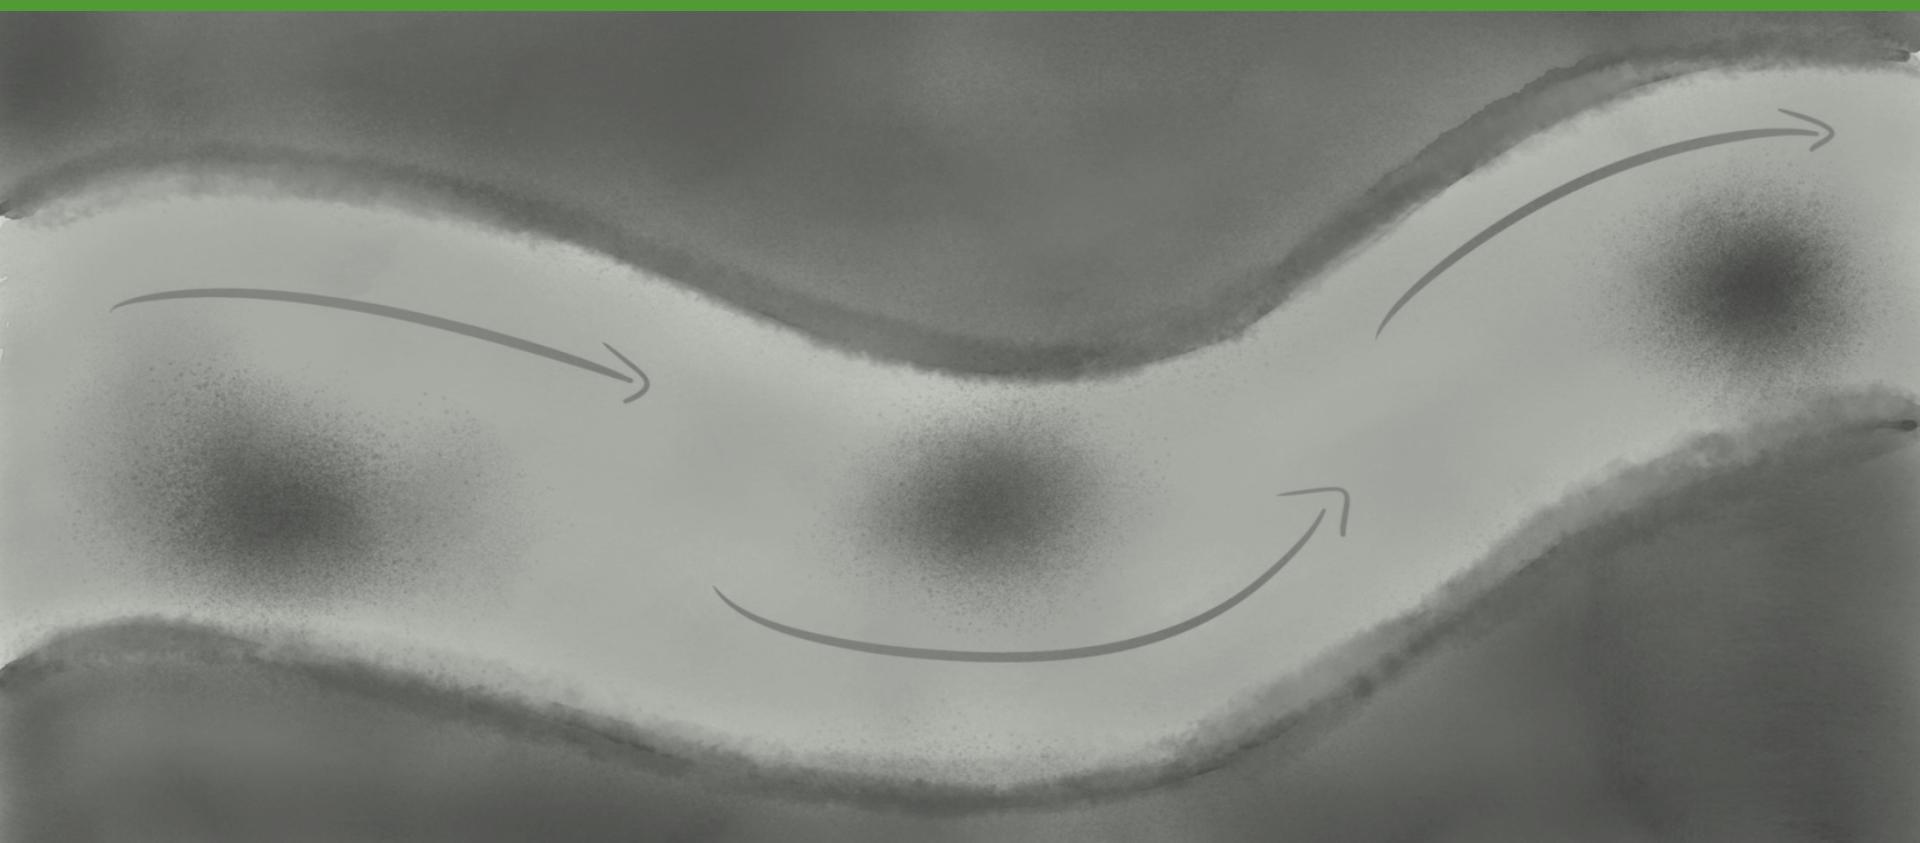

Tell me how you measure
me? I will tell you how
I behave.

If you measure me in
an illogical way... do
not complain ^{about}
illogical behavior.

ELI GOLDRATT

Optimize for Flow

RELENTLESSLY
PROTECT FOCUS

There is nothing quite
so USELESS as doing
with great efficiency
that which should
never be done AT ALL!

PETER DRUCKER

	LEARN	APPROVE	COORD.	EXECUTE	LAUNCH	MEASURE
HIGH RISK				2 ITEMS MAX		
MEDIUM RISK				3 ITEMS MAX		
LOW RISK				6 ITEMS MAX		

Waiting to do something until
it can be 'used' is working
Smarter, not harder.

Don't waste your most precious
resource... time!

Prioritize Continuous Improvement

HYPOTHESIS

What do I think
will happen?

EXPERIMENT DESIGN

What will I do
to test my
hypothesis?

RESULTS

What are the
outcomes of
the experiment?

CONCLUSIONS

What did I
learn from this
experiment?

YOU CAN HELP

<http://leankit.does17.sgizmo.com/s3/>

1. How are you tracking cumulative progress from improvements?
2. What change had the biggest positive impact on organizational health?
3. What is your organization's biggest pain point right now?
